In 1789, George Washington was elected as the first president of the United States. He achieved great things during his two terms in office. His leadership style emphasized unity, and he worked to establish the federal government's authority while respecting the rights of individual states.
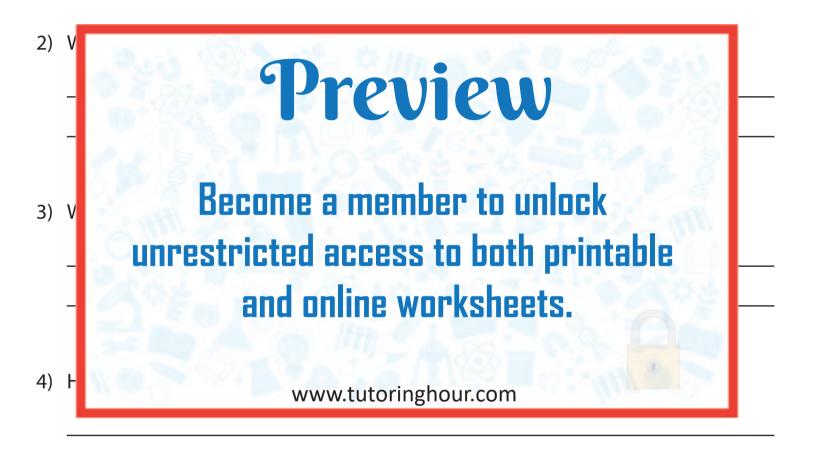

Presidents

After serving his second term, Washington voluntarily stepped down as president in 1797, setting an important example of limited presidential terms and preventing a concentration of power. He returned to his Mount Vernon estate in Virginia and passed away on December 14, 1799.
