

Making Ten

Answer Key

Complete each addition sentence to make a total of 10.

$$1) \quad \underline{1} + 9 = 10$$

$$2) \quad \underline{8} + 2 = 10$$

$$3) \quad 7 + \underline{3} = 10$$

$$4) \quad \underline{4} + 6 = 10$$

$$5) \quad \underline{6} + 4 = 10$$

$$6) \quad 9 + \underline{1} = 10$$

7) Kevin wants to bake 10 cookies. If he has already baked 5, how many more cookies does Kevin need to bake?

$$\underline{5} + 5 = 10$$

8) Jenny needs to read a 10-chapter book. She has already read 3 chapters. How many more chapters does she need to read?

$$3 + \underline{7} = 10$$
