

Reading and Interpreting Bar Graphs

- 1) The bar graph represents the number of students enrolled in various classes at a school of music. Read the graph and answer the questions.

Classes			
Number of Students			

- 2) The bar graph below has data about animals at the AAL animal shelter. Read the data and answer the questions.

1) How many  are housed in the shelter?

2) How many more  than  are at the shelter?

3) How many  and  are housed in the shelter altogether?
