Creating a Box Plot

Create a box-and-whisker plot for each data set.

1) A group of athletes recorded the distances, in miles, they ran during training. The distances are as follows:

6.1, 5.5, 7.6, 5, 7, 7.5, 5.2, 6.9, 5.9, and 8.

Read the given data of the running distances and draw a box-and-whisker plot.

Minimum	Q_1	Q_2	Q_3	Maximum

2) A

20

D

Minimum	Q_1	Q_2	Q_3	Maximum

20   25   30   35   40
