

# Estimating Capacity | Customary Units

A) Choose an appropriate capacity unit for each container.

1)

	<input type="checkbox"/> cup
	<input type="checkbox"/> gallon

2)

	<input type="checkbox"/> cup
	<input type="checkbox"/> quart

3)

<p>B) S</p> <p>1</p>	<h1>Preview</h1> <p>Become a member to unlock unrestricted access to both printable and online worksheets.</p> <p>www.tutoringhour.com</p> 	
		coffee mug

C) Complete each sentence with an appropriate unit of capacity.

- Sarah bought 2 \_\_\_\_\_ (cups/gallons) of paint to paint her room.
- Kevin used 4 \_\_\_\_\_ (tablespoons/pints) of milk to make ricotta cheese.
- Isabella used 1 \_\_\_\_\_ (tablespoon/gallon) of laundry liquid to pre-treat a stain on her shirt before washing it.
