Constant of Variation | Equation

1) −6r + s = 0. Find the constant of variation if

   a) s varies directly with r. _____

   b) r varies directly with s. _____

2) $\frac{15}{}$ = 5d. Find the constant of variation if

3)

4)

   a) b varies inversely with a. _____

   b) a varies inversely with b. _____

5) 7p − q = 0. Find the constant of variation if

   a) p varies directly with q. _____

   b) q varies directly with p. _____
