

Converting between Improper Fractions & Mixed Numbers

A) Convert each improper fraction to a mixed number.

1		$\frac{59}{6} = \underline{\hspace{2cm}}$
2		$\frac{13}{3} = \underline{\hspace{2cm}}$
3		$\frac{42}{5} = \underline{\hspace{2cm}}$

B) Convert each mixed number to an improper fraction.

1		$4\frac{1}{2} = \underline{\hspace{2cm}}$
2		$6\frac{3}{4} = \underline{\hspace{2cm}}$
3		$7\frac{3}{10} = \underline{\hspace{2cm}}$
