Making a Double Line Graph

A bunch of teenagers auditioned for a show. The given data reveals the number of girls and boys who auditioned each day. Analyze the data and plot a double line graph.

Days	Boys	Girls
Day 1	30	40

Number of Teens (y-axis: 0, 5, 10, 15, 20, 25, 30)

Days (x-axis: Day 1, Day 2, Day 3, Day 4, Day 5)
