

Reading and Interpreting Line Graphs

Gavin is practicing for the Chicago Marathon. The line graph illustrates the number of miles he ran in 10 days. Read and interpret the graph to answer the questions.

Gavin's Marathon Training Plan

- 1) How many more miles did he run on Day 4 and Day 5 combined than on Day 1? _____
- 2) On which day did Gavin run 7.5 miles? _____
- 3) On which day did Gavin run the fewest miles? _____
- 4) How much distance did Gavin run in 10 days in all? _____
- 5) Gavin ran fewer miles on Day 2 than on Day 4 and Day 8 put together. True False
