

Making Line Plots

- 1) Twenty children participated in a game of balloon pop at a birthday party. The number of balloons popped by each child is recorded and tabulated below. Make a line plot to represent the data.

26	23	20	20
20	21	23	22
21	26	24	21
22	24	23	21
21	25	24	23

- 2) Mr. Harvey conducted a spelling test for his students. The data depicts how many points, out of 10, his class of 30 students scored. Prepare a line plot to represent the data.

8	5	7	10	9
6	10	5	9	8
10	9	8	7	6
7	6	9	8	7
10	8	10	6	9
9	7	6	8	5
