

# Finding Hypotenuse

Determine the hypotenuse in each right triangle using the Pythagorean theorem.

1)

$$AC = \underline{\hspace{2cm}}$$

2)

$$XY = \underline{\hspace{2cm}}$$

3)

$$EG = \underline{\hspace{2cm}}$$

4)

$$QR = \underline{\hspace{2cm}}$$

5)

$$TV = \underline{\hspace{2cm}}$$

6)

$$LN = \underline{\hspace{2cm}}$$
